Spark From Waste Paper Starts Fire

Monday morning the fire department was called to put out a fire at the home of Mr. and Mrs. Rodeghero on Wolf road, Mokena. Mrs. Rodeghero had been burning the contents of a waste paper basket, which happened to be near some inflammable material being used in putting a new roof on their home. A spark thrown by the paper fire evidently touched off the roofing inflammables stored in cans, which began popping. Unable to put the fire out because the lawn hose which was lying out of doors had frozen and would not permit a flow of water, Mrs. Rodeghero called the fire department who responded immediately, and quickly put the fire out.

Who Said That?

Twenty years ago a presidential candidate wrote: "For one reason or another, even a wisely led political party, given long tenure of office, finally fails to express any longer the will of the people, and when it does so fail to express the will of the people, it ceases to be an effective instrument of party government. It is far better for such a political party, certainly better for the state, that it should be relegated to the role of critic and that the opposing political party should assume the reins of government." The speaker: Franklin D. Roosevelt. The time: The 1932 presidential campaign.

1952 Blue Cross Drive Opens Oct. 20

Monday, October 20, another enrollment in Blue Cross Plan for Hospital Care and Blue Shield Medical-Surgical plan will open for residents of Will county under the sponsorship of the Will County Health Improvement association. According to Mrs. Harry Eaton, Elwood, president of the HIA, enrollment will continue through October 31.

Volunteer workers from thru out the county will meet at the Farm Bureau Bldg. in Joliet on October 15 at 7:45 to discuss the two plans.

Blue Cross plan of hospital service corporation provides its benefits as hospital services, in most cases, instead of limited dollar allowances. This means that whether a member's bill for Blue Cross benefits is for \$2, \$2,000 or more, it is paid in full by Blue Cross. Members receive 30 days of full Blue Cross benefits in each calendar year plus 90 additional days in the same year when half the cost of Blue Cross benefits is paid by the plan.

Blue Shield Plan of Illinois Medical service provides allowances which help its members pay their doctors for medical surgical and obstetrical care. This plan provides allowances for in-hospital medical and surgical care, fractures and dislocations, in or out of the hospital, maternity care, in or out of the hospital, and for hundreds of operations which are listed in the Blue Shield schedule of Maximum Allowances.

To be eligible to join Blue Cross and Blue Shield thru the HIA, a person must live on a farm or be employed in a group of less than five people. The subscriber and spouse must be under 66 years of age, but once enrolled, there is no age limit and membership may be kept for life. All unmarried children under 19 years of age may be enrolled under the family membership and will be eligible for the same broad protection as the parents.

We of the HIA sincerely hope that every eligible resident of Will county will plan to join these two health care plans during the coming enrollment period," Mrs. Eaton said. "No one knows when he will need the skilled services of a doctor or the services which hospitals provide."

Anyone interested in enrolling in Blue Cross may contact the H. I. A. office, 59 W. Clinton St. Joliet or your local workers. Watch the paper for their names.

Arthur Lambrecht of Frankfort directed the Chicago Heights Kiwanis chorus of 32 voices at a program marking the opening of the Illinois-Iowa district Kiwanis convention Sunday, October 5, in the Gold room of the Congress hotel, Chicago.

The men sang popular and novelty selections at the governor's banquet in the Walnut room and appeared in another program at the past governors' dinner in the Francis I room.

A 8:30 p.m. memorial service was held with the chorus offering "The Lord's Prayer," "Prayer Perfect" and "Battle Hymn of the Republic." Dr. J. Walter Malone, president of Millikan university, gave the main address.

Last year the chorus sang at the international Kiwanis convention held at St. Louis, Mo., and for the past three years has sung on several coasts to coast radio network programs.

The Mokena village board met Tuesday night and passed a number of important ordinances. Among them was an ordinance approving the plans and specifications of De Leu, Cather and Co., Engineers for the water system in the village of Mokena.

The first item in this plan was the elimination of cross connections; second, calibrating water meters and regulating and sealing the meters; third, installation of new valves and repairing existing valves; fourth, installing a chlorinator; fifth, putting in a new well and pump and sixth, the addition of new water mains, principally in the northeast corner of the village.

The second ordinance passed at the meeting was to submit a plan to issue bonds for \$65,000 a year to come under the general obligation fund, the same to be approved by the voters at an election for the purpose.

The third ordinance passed was the approval of the \$60,000 water bonds. These water bonds can be passed without approval of the citizens at an election. In order for an election to be held whereby the voters can register their approval or disapproval the board would have to be petitioned within 21 days after the publication of this ordinance requesting the board to hold an election.

In connection with this \$60,000 bond issue, this would be payable over a period of 40 years at 4 1/2 per cent interest which would necessitate the raising of the water rates to meet the increase.

Attorney Schenck stated that before any water bonds can be floated, the village must reach an agreement with Everett J. Cooper, and also that the obligation owing to the Mokena State Bank, which is around \$2,000 must also be paid.

Mayor Spiess, in dealing with these water problems, recommended that the board take steps to eliminate all cross connections, install new valves where needed, and replace mains where needed.

W. A. Mueller appeared before the board and entered into quite a lengthy discussion regarding the requests he has been making of the board to lay water mains in a subdivision which he anticipates promoting.

Samples of water taken at the village hall within the past few days for analysis have been returned as "pure."

It was announced at the meeting that there is a change being made in the responsibility of state and county roads. All county roads within the boundaries of the village are to be the responsibility of the village, and all state roads within the county are to be the responsibility of the county. The state has requested the counties and villages to report on this, which is to be carried on over a five-year plan of road construction. This will be maintained out of the fuel tax fund.

The board members have suggested to Edward Breuser of Circle Drive, south of Mokena that he make a study of the present and proposed new building code in order to fit himself for the position of building inspector for Mokena. The board will hold a special session to discuss a new building code. James Fasset is chairman of this committee.

Police Chief Whitney Carter reported that he had given 44 arrest tickets in the last month, and that he had, according to the suggestions of the board, personally visited the 28 owners of dogs who are delinquent in their dog tax and inclosure of dogs, and the eight persons delinquent in payment of their village vehicle tax. He was able to collect a few of these delinquent taxes. Those still due will be sent a notice, and if the taxes have not been paid at the end of ten days they will be summoned into court and fined \$25 and costs.

Mr. Carter recommended that there should be a curfew in the village for all under 18, years of age.

**Wm. Stratton Says
He Was Misquoted**

William G. Stratton, Repub-
lican candidate for governor,
while speaking at Robinson, Ill.,
charged his opponent with "ly-
ing about my position on Illinois
finances and deliberately mis-
quoting me."

Stratton declared, "I have nev-
er said there is no choice but
to raise the sales tax. I did say,
however, that at the present
rate of spending by the Steven-
son administration—more than
is coming in—there is but one
alternative, the raising of addi-
tional revenue."

He quoted Stevenson's fi-
nance director Joseph Pois who
said that "the present rate of
spending could not be continued
indefinitely without raising more
revenue because the state's sur-
plus eventually would be used
up."

Stratton said: "The other al-
ternative is my pledge to stay
within the present revenue,
which means no increase in tax-
es."

From where I sit... by Joe Marsh

Our Town Wouldn't Take a "Back Seat"

Well, the "battle of the buses" has been settled! Our town is again friendly with Balesville.

Everything started when buses began going through our town with a big sign on them saying **SHOP IN BALESVILLE**. The bus line is owned in Balesville and operates over here on a franchise.

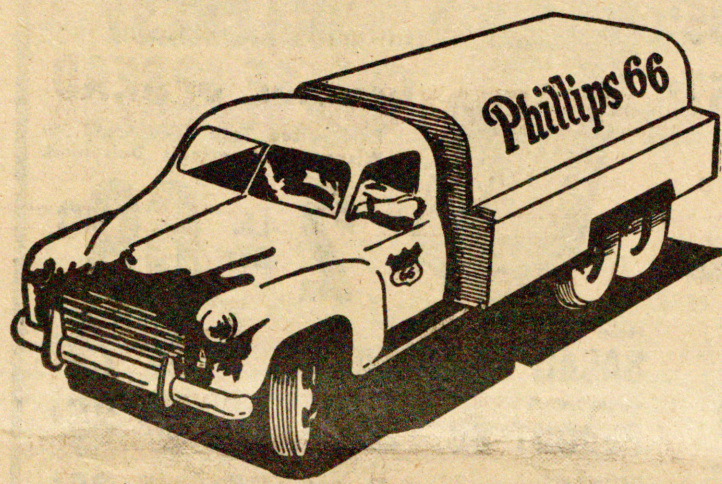

Windy Taylor was all for putting up barricades—he kept calling up the police and the bus company. Finally Judge Cunningham invited the Balesville Chamber of Commerce to meet with ours at Andy's Garden Tavern.

Over a good meal and glass of beer we all reached a compromise without any trouble. Those signs now read **SHOP HERE IN TOWN**. Everyone's happy.

From where I sit, it shows how problems disappear once both sides get together and try to work things out. Naturally we're all a little different. Some like soda pop, for instance, and some like beer. So what? We all have to ride along through life together. Why not make it a pleasant trip?

The annual fall supper and bazaar sponsored by the WSCS of the Methodist church was well attended. The committee in the bakery booth, candy and country store wish to thank all who donated so generously to make the sale a success.

A Statement

By Congressman N. M. Mason
The Truman-Stevenson slogan for this campaign is, "You never had it so good!" When analyzed this slogan fits very few people. Our analysis follows:
"You Never Had It So Good"
1. Who? The boys in Korea, the 3 1/2 million American boys in uniform, the mothers and fathers of these boys? The one-half million casualties during the Korean "police action" war?
2. Who? The American people that have been living for 20 years under the threat of war, actual war, "police action" war, and now face the possibility of World War III?
3. Who? The worker that gets \$2.00 wages for every \$1.00 he received twenty years ago, but he to pay out \$2.50 for a steak he bought for \$1.00 twenty years ago?
4. Who? The 50 million American taxpayers who paid \$4 billion in Federal taxes 20 years ago, but today pay \$68 billion in Federal taxes?
5. Who? The 70 million Americans whose insurance policies savings accounts, U. S. bonds, have all been cut in half during the past 20 years through inflation and the devaluation of the dollar?
6. Who? The average American family who has been saddled with a Government debt of \$7,000 that must be paid off some day?
7. Who? The State and local governments that 20 years ago received 75 cents out of every tax dollar collected—but now get only 25 cents out of every tax dollar collected, because the Federal government grabs 75 cents?

8. Who? The businessman who is afflicted with Government restrictions, controls, and regulations of every kind—who must make multitudinous government reports, and who must hand over to the tax collector 70

cents out of every dollar of profit he makes?

It is quite true, however, that some "never had it so good!"

1. Who? The labor leaders, gangsters, racketeers, and gamblers who have tie-ups and influence with the Washington bureaucrats.
2. Who? The 2,600,000 Federal civilian employees who now do the work that 600,000 Federal employees used to do, and draw \$10 billion in pay annually instead of the \$2 billion the 600,000 employees drew.

3. Who? The Communists that have infiltrated every Department of the Federal government and have been coddled, protected, and defended by Administration leaders.

4. Who? Salin, the man who 7 years ago was dictator over 300 million Russians, but now is dictator over 900 million people.

5. Who? The foreign countries that have received in "handouts" \$50 billion of American taxpayers' money since World War II. (This money could have and should have been used to provide comfort for the needy old people of America, and to provide increased pensions for our retired government employees).

Joliet Area Medics Enroll for Post-Graduate Course

In an effort to keep abreast of the most recent advancements in medicine, 65 physicians in Joliet and vicinity went back to school this fall for a series of weekly lectures which started Tuesday morning, Oct. 7.

The physicians are enrolled in the fourth annual postgraduate program of the Illinois Academy of General Practice. The program will be given at St. Joseph's hospital.

Dr. A. I. Doktorsky of Chicago, chairman on education for the Illinois Academy of General Practice, has announced that Dr. L. F. Roblee of Lockport is serving as registrar and local chairman for the school which is being held at Joliet. Similar programs are being given in nine other Illinois cities.

The series of integrated lectures will be given at Joliet every Tuesday morning through Nov. 11. Following a recess during the winter, the course will resume again next spring.

Certificates will be issued to physicians upon successful completion of the course. Physicians also will receive credit for post graduate work which is required for membership in the Illinois Academy of General Practice.

AN EDITORIAL

American casualties in the Korean war have been running high during the past month, averaging about 700 killed, wounded and missing every week. Just think of it! Seven hundred fine, strong American boys put out of commission every week—many of them forever—in a war we cannot hope to win!

This weekly total is equivalent to the total population of the average small town. As for the total American boys killed, wounded and missing since the start of the Korean war in June, 1950, the figure now stands around 120,000. This is equal to the combined population of Joliet and Decatur, with a dozen towns the size of Mokena thrown in.

While all this slaughtering of American youth is going on every week to take a hill one day and lose it the next, on a mountainous peninsula 8,000 miles away, which was written off in the first place of no strategic value to the defense of the United States, our so-called allies in the 60-member United Nations engaged in this "collective" security effort are putting up less than one tenth of the forces the U. S. is putting up, to say nothing of the cost in billions of running this hopeless war in Korea.

For example, British and French losses weekly are two or three soldiers for each country, as against our 700.

England, it should be remembered, has six votes in the councils of the United Nations. America has but one vote. Russia, the real enemy, has three votes.

From time to time we hear, in defense of a continuance of the hopeless war in Korea, the statement: "Oh, but if we were to end the Korean war we would have a depression."

Yes, this statement sometimes comes from very nice people. But you can be sure they have no sons in the Korean war, and no sons in the draft. You can also be sure they had no sons in the last war—the war which was fought to end all wars, as we were told.

Americanism has reached a pretty low level when it prefers a war to a depression, even if that war is 8,000 miles away, because after all, that war is steadily draining America of the flower of its youth, while Russia, the real enemy, loses not a man. No one wants a depression, and we do not need to have one—war or no war—under proper leadership, but have we sunk so low that we prefer war to a depression? Heaven forbid!

REFERENDUM ON MOSQUITO ABATEMENT

(CNS) County Court Judge Edmund K. Jarecki has indicated that he will order a referendum November 4 on establishment of a South Cook County Mosquito Abatement District.

Judge Jarecki last Thursday set the boundaries for the district. They will be the same as those first asked to be put on

the ballot in a referendum to be voted on in the November 4 presidential election. The boundaries are from 87th street on the north to the county line on the south, east and west.

The judge earlier last week had heard objections to the plan by Attorney John F. Tyrrell representing objectors in Thornton Twp. But the judge said he believes there is a real need for such a body to fight the mosquito menace in the south end of the county.

Attorney Tyrrell charged that the residents of the more heavily populated areas in the district would have to pay the major burden of tax support for the district and that the less heavily populated areas would reap the same benefits without paying as much taxes.

The attorney also charged that the petition to have the matter placed on a referendum ballot was invalid because 12,491 of the total of 19,980 signatures were forged. He charged further that

the chief engineer of the Des-Plaines Valley abatement district, which is just to the north of the proposed south end district, was not a licensed engineer in the state. The attorney said that the engineer J. Lyell Clarke, was one of the main proponents of the south end district.

**DEARBORN-WOOD BROS. CORN PICKER**

Works Equally Well in Everything from Heavy Yielding Hybrids to Pop Corn

It doesn't matter what kind of corn you get into with this picker—little ears, big ears, ears low or high on the stalk, ears and husks that hang tight or loose, or hybrids, open pollinated, or pop corn. The Dearborn-Wood Bros. Corn Picker works well on all of them. Furthermore, it is not necessary to be forever fussing with various adjustments to meet slight changes in crop or field conditions.

These features are important to farmers. They are even more important, perhaps, to custom operators or to farmers who do custom work.

CARD OF THANKS

We wish to thank all our friends and neighbors for all the kindness shown us during the passing of our husband and father.

MRS. P. KNEIP and FAMILY

Walter Hunzicker of 167th St. left by plane Sunday on a business trip to Boston, New York and Bridgeport, Conn. to be gone a month or 5 weeks.

The Elroy Marbachs, Mr. and Mrs. Geo. Curtis, Dorothy McKee, and Jean Cavanaugh, attended a Bible conference with Lee Maynard as speaker, in Hammond, Ind. Tuesday evening, Sept. 30.

Guests at a birthday party celebrating Susan Marbach's 9th birthday, Sept. 28 were Barbara Libbert, Karen Freund, Peggy Wierke, Keitha McArthur and Andy Auld. The table was decorated with balloons, and pink and white crepe paper. The girls enjoyed the ice cream and birthday cake. Games were played, and each guest received an award. At another party held the same evening in honor of Susan, guests were Mr. and Mrs. Warren Marbach, Patsy and Kenny of Chicago; Mr. and Mrs. Glenn Marbach of Palos.

800 Boys Enjoy Two Weeks at Wisconsin Camp

The Union League Foundation for Boys' Clubs reports that its annual summer camp at Salem, Wis. was one of the most successful in the Clubs' history. W. R. Blew of 144th street, Orland Park, is a member of the board of trustees of the Boys' Clubs Foundation.
Approximately 800 underprivileged boys from the West Side and North Side of Chicago each spent two weeks at the clubs' camp which operated from June 30 to August 23. The camp is located on an 18 acre lake near Salem and covers 200

acres of land. The equipment and facilities include sleeping cottages for the boys, a camp hospital, recreation hall, kitchen and mess hall, plus accommodations for the staff and workers. The hospital was the least used facility during the season with no serious illness or accident occurring to the boys.

The camp program included nightly campfires for the boys swimming, boating, hikes, archery, baseball, track and group games. Although the cost of operation of the camp is approximately \$18,000, each boy who attended paid only a small fee of \$10.00 for the two-week period.
The Union League Foundation for Boys' Clubs is carried on as a public service by the Union League Club of Chicago and is almost entirely supported by contributions from Union League Club members.

E. T. Wilkes, executive director of the Foundation, who has spent more than 25 years in boys' club work, is in charge of the camp and its staff.

Christians Differ

Lesson for October 12, 1952

"I WILL GIVE YOU the secret of true happiness." If a man starts talking in that vein he will have listeners at once. Jesus began his famous sermon on the mount with that magic word "happy." It is unfortunate that most of our English translations use the word "blessed" because for most people "blessed" is a church-word. They don't know whether they want to be blessed or not; they have no doubt about wanting to be happy. It is twice unfortunate that Jesus' meaning has been hidden under an even more forbidding word, "Beatitudes." What we have here is a series of one-sentence pictures of truly happy persons.

Dr. Foreman

What Christians Are

In these sentences Jesus sketches the kind of person who "has," that is to say, belongs to, the Kingdom of Heaven. If God were forced to throw away some of the human race and keep others, these are the people he would keep. Jesus in these short sentences is picturing the Christ-like. He is not talking about what they believe but about what they are. There is all the difference in the world between Jesus' idea of a Christian and some of the popular ideas today. For example, many persons think of a Christian as a person who keeps a certain number of rules, or believes a certain number of things, or belongs to a peculiar kind of club called the church. But a club member may be exactly like the people on the outside except that he has paid his dues and they haven't; and some church members are just like non-church members except that they have paid their dues (or at least owe them) while the outsiders have not.

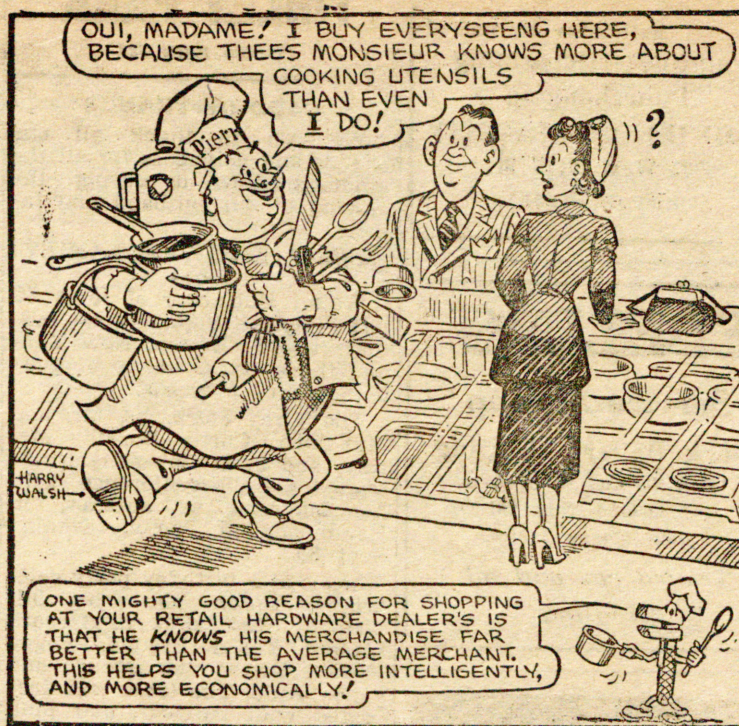

Finding True Happiness

Let us venture to put the meaning of Jesus into simple words of today. The following sentences are meant to suggest only some of the means wrapped in these truths-for-life. . . Do you want to know the secret of happiness? Jesus asks. I will tell you. The happy are those who know how little they know and how far from good they are. These are the real people, God's people. The happy are not always the gay; the happy are the serious, those who feel a sincere sorrow for their sins and shortcomings, sorry enough to turn away from them. The happy are those who do not insist on their own rights, who carry no chip on their shoulders, who are more interested in justice for others than for themselves. After the proud have destroyed the proud, these are the people to whom the earth belongs. The happy people are those who want to be good more than anything else in the world. This is the one desire that God always fulfills. Happy people are those that find their happiness in helping others; these are the people who will find helpers in their own time of need. Happy people are those who are pure, not in act alone but in inner thoughts and desires. They are the ones who have any eyes for God. Happy people are not only peaceable themselves but help others to live in peace as well. These are the people who are really God-like. Happy people are not always free from trouble; but their troubles have been caused chiefly not by their sins but by the fact that they are good. They have their heaven in their hearts.

Christians Are Different

You are happy yourselves (Jesus concludes) when the hard things said about you are lies. You are happy when you suffer as I suffer, on behalf of others. God will reward you; you belong to the glorious company of the best men of all time, for there never was a good friend of God who was not misunderstood and slandered. Jesus never explained all he meant. ("He who has ears, let him hear," he used to say.) But whatever may be puzzling, one thing is clear: Christians are different. If a man fits these descriptions ever part-way, he is noticeably different from the run-of-mine human being. We cannot water down Jesus' ideas, for they are really radical. We should not try to make it sound easy; he did not. But let us be as frank as he was: If you want to find real happiness, if you want to belong to God's people, if you want to be a real Christian, this is it.

Point Out Many Reforms Made In Sanitary District

The voters will elect three candidates for Trustees of The Sanitary District of Chicago at the November 4th election. The positions are of tremendous importance to the people in terms of taxes and in terms of public health.

In 1946, after twenty years of Democratic rule over the Sanitary district, four Republicans were elected trustees, Anthony A. Olis, Michael J. Rudnik, J. B. Martin, each for a full term of six years, and William S. Nordburg for a term of four years to fill a vacancy. Although in the minority these four men started to clean up the Sanitary district. By constructive recommendations, hard and efficient work, many reforms were started that have proved very helpful.

One of the first and most important of these reforms was the appointment of a general superintendent for the entire Sanitary district. This was the beginning of a better co-ordination of all departments through one central authority. Other reforms continued, the employment of a purchasing agent (non political) who was selected after many interviews from a number of applicants. Also the appointment of a Civil Service board comprised of three men, all from outside the district. This Civil Service board, altho

put into operation just within the last two years, was recommended in a minority report by the Republican trustees elected in 1946.

In 1950 the four year term of William S. Nordburg was completed and he was re-elected with William F. Patterson and John G. Henneberger giving the Republicans control of the Sanitary district. Since then the most important matter accomplished was the reducing of our tax levy which made the Sanitary district the only taxing body in Cook County that reduced taxes. The Sanitary district was commended by many civic groups for this fine accomplishment.

One of the first construction jobs to be put through by the Republican trustees when they became members of the board was the interceptor sewer that went into South Holland. The people of South Holland waited many years for this and it took Republican initiative to get it done. Large interceptor sewers were built covering the entire North Shore from Evanston to the Cook County line on the north. New interceptors are now being built to take care of Northbrook and Mt. Prospect. A very important interceptor that was started before the Republican trustees were elected was completed on the south side. This giant interceptor will take care of millions when the Chicago sewers have been completed and empty into it.

Since Republicans took over the payroll has been cut considerably. The number of employees has been cut from 2,400 to 1,900. Everything possible is being done to operate the Sanitary district on the same basis on which outside industry operates.

The Sanitary district makes a fertilizer and the production of this product has been increased considerably and will continue to be increased. The revenue from this now runs over a million dollars and this amount can easily be doubled.

Since the Republicans have taken over every consideration has been given to the employment of our citizens regardless of race or religion. The Republican majority has done everything to make sure that no favoritism is shown. Of course, they have demanded men and women who appreciate their jobs enough to do a day's work and do it well. Efficiency has always been the by-word in their selection of employees.

In order to keep the constructive program going at the Sanitary District it is very important that the three candidates asking for re-election be sent back to continue their fine work. These trustees, Anthony A. Olis, president of the Board of Trustees, Michael J. Rudnik, vice president of the Board of Trustees, and Trustee J. B. Martin, head of Real Estate, have been very attentive to their duties and on the job every day.

BIBLE WEEK

The whole Christian world
 unites in commemorating the
 origin of the first book printed
 with movable type, The Guten-
 berg Bible.

Catholics and non-Catholics,
 alike, during the week of Sep-
 tember 23 to October 5 observed
 Gutenberg Bible week by way
 of paying deserved honor to
 John Gutenberg, a Catholic lay-
 man and sincere member of the
 Third Order of St. Francis, who
 500 years ago, invented the art
 of printing as we know it today.

His book, the famous Guten-
 berg Bible is not only the first
 book printed from movable type,
 but it is everywhere acclaimed
 as one of the best examples of
 the art of printing.

Many may wonder where he
 found the text of this Greatest
 Story ever told, which he printed
 in 1452-31 years before the
 birth of the well known priest
 Martin Luther who gained his
 knowledge of Christianity from
 this same Latin Vulgate, and his
 Breviary, which, as a priest he
 was obligated to study and read.

Christianity inherited the Old
 Testament from Jewish scrip-
 tures. The New Testament is
 comprised of 27 books including
 four Gospels, The Acts of the
 Apostles, and 21 Epistles or let-
 ters which were inspired by God
 and written down by compan-
 ions of, and eye witnesses of,
 the birth, life, works, death and
 resurrection of our Lord Jesus
 Christ. Ending with the Apoca-
 lypse, or Revelations of St.
 John, the disciple Jesus loved.
 These were all written within 65
 years of the resurrection.

The remarkable thing is, that
 Christ told the Apostles to
 preach, no record tells of a com-
 mand to write; hence these sac-
 red manuscripts were kept sac-
 redly as reference by the Jews
 who received them and the
 teaching of the Master reached
 most Christians by word of
 mouth only, as preached by His
 church for over 300 years.

Often mistakes were made
 and truths were distorted.
 The Catholic church realized
 that the great truths must be put
 into an authentic form and called
 the Council of Carthage in
 397 A. D. This council officially
 declared which were the true
 books to be included in the
 Christian bible. (Bible means
 Book) This included 45 books of
 the Old Testament and 27 of
 the New Testament.

Pope St. Damasus I, in 382 A.
 D. commissioned the noted
 priest and scholar, St. Jerome
 to make a general and true re-
 vision and translation of the old
 and new testament books into
 Latin the language that was
 then universal. These 27 books
 were originally written in Greek
 Hebrew and Aramaic. The of-
 ficial seal of the church was put
 upon them in 406 A. D. and the
 name Latin Vulgate given to it.

This was guarded and kept sac-
 red by the church through the
 coming and going of many wars
 and as we would say, "Hitlers"
 and "Stalins." In 1546 the Coun-
 cil of Trent also put its seal
 upon it and declared it the only
 true version of Scripture.

John Gutenberg chose to print as his
 first. The same used to preach
 from and in the liturgy of the
 church then, as well as now in
 1952—and was immediately
 translated into German, Italian,
 French and English.

John Gutenberg was born in
 Meyence, Germany, about the
 year 1400, was a goldsmith and
 his experiments in printing be-
 gan in the 1430's.

Thirteen copies of the Guten-
 berg Bible are in the United
 States today, one of which is
 owned by the U. S. Government
 and was used by President Harry
 Truman when he took the oath
 of office.

Hoping these authentic facts
 will be of interest to all Chris-
 tians of our community.

Respectfully,
 Florence Zane Demkov

Inaugurate Trailer- On-Rail Service

(CNS) Some signs of peace be-
 tween the railroads and the mo-
 tor carriers are seen in the in-
 auguration of trailer on flat car
 service by the Chicago and East-
 ern Illinois railroad between
 Chicago and Evansville, Ind. Ten
 flat cars, each able to carry two
 medium-length trailers, have
 been assigned to the overnight
 Chicago-Evansville run.

The railroad has engaged in a
 similar type of service on a mi-
 nor scale for some time. The line
 claims many advantages to both
 railroads and motor carriers
 under the system, including ad-
 ditional carload freight traffic
 and increased revenue for the
 railroads. Advantages claimed
 for the motor carriers are ab-
 sence of interstate weight and
 license barriers, and freedom
 from adverse highway condi-
 tions due to storms, washouts,
 and traffic congestions.
